Background

Parents voluntarily completed a brief survey at the time they registered their child for Kindergarten. The survey was developed with input from Kindergarten teachers, school counselors and school administrators. A focus group of parents gave critical feedback on question wording and structure.

This report provides results for 554 parent surveys. In the 10 schools that participated, a total of 1007 students were registered for Kindergarten. Across the 10 schools, surveys were completed for 55% of registered students. However, participation rates for individual schools ranged from 23% in Palmyra-Macedon to 75% in Marion, Sodus and Wayne Central.
