YOUR HEALTH MATTERS

Wayne County Community Health & Wellness News

A Note From the Nurse's Office:

Parents and Caregivers can instill healthy sleep habits by setting rules and modelling good behaviors! Here's the top tips:

1. **Be Consistent-** Go to bed and get up at the same time every day, even on weekends. This routine is important for people of all ages- children, teens, and adults.
2. **Create a Better Bedroom-** Make sure the room is a comfortable, cool temperature and that it is quiet and dark. Removing all electronics from the bedroom can help create a restful space.
3. **Prep Yourself-** Avoid heavy meals and caffeine before bedtime. Set a "media curfew"- a time to stop using electronics to help your body and mind wind down in preparation for sleep. Getting daytime exercise can also help you fall asleep more easily.

Back-to-School Lunch Packing Tips

- Tip #1: Aim for each lunch to include foods from all 5 food groups - found on MyPlate!
- Tip #2: Prep meals weekly and chop veggies on days when you are least busy!
- Tip #3: Have students help choose and prepare foods and pack their own lunches!
- Tip #4: Spread peanut butter on both sides of the bread with jelly in the middle. This way the jelly doesn't get one side soggy.
- Tip #5: Choose non-fat or low-fat drinks with little to no sugar added. Infused water is a great option!
