Background

Parents voluntarily completed a brief survey at the time they registered their child for Kindergarten. The survey was developed with input from Kindergarten teachers, school counsellors and school administrators. A focus group of parents gave critical feedback on question wording and structure.

This report provides results for 585 parent surveys. In the 10 schools that participated, a total of 1,004 students were registered for Kindergarten. Across the 10 schools, surveys were completed for 58.3% of registered students. However, participation rates for individual schools ranged from 29.0% in Newark to 82.6% in Clyde-Savannah.

There were few blanks or “non-responses” to any item. In fact, only one item had three blanks total for the entire county sample.
